

Barry County / Hastings 1500 Star School Rd.

All existing facility locations are approximate and are not to be used for construction purposes.
Always contact MISS DIG 811 before you dig.

Electric Site Benefits

- **Distribution System**
 - The distribution system is located adjacent to the site.
 - Current available capacity is 2 MW with minimal upgrades. Additional capacity may be available with system upgrades.
- **46 kV System**
 - The 46 kV system is located approximately 1 mile away.
 - Facilities will be sized to meet the energy needs of the customer and available system capacity determined at the time of a specific request.
- **138 kV System**
 - The 138 kV system is located approximately 3 miles away.
 - Facilities will be sized to meet the energy needs of the customer and available system capacity determined at the time of a specific request.

Natural Gas Site Benefits

- **Distribution System**
 - A 4-inch medium-capacity gas main just south of the site on Star School Road, with a maximum allowable operating pressure (MAOP) of 60 psig.
 - Main requires extension to site, and additional system improvements may be needed based on hourly load and pressure needs.
 - High pressure gas facilities on State St. to the North if more capacity is needed.
 - Delivery pressure will depend on customer needs and hourly load.
